## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 2 September 2005 has been entered.

### ***Allowable Subject Matter***

2. **Claims 1, 3, 6, 8, 10, and 12** (now renumbered 1 – 6, respectively) are allowed.
3. The following is an Examiner's statement of reasons for allowance:

The closest prior art solid-state image pickup apparatus (including that of the previously cited Kim et al.) at least disclose a plurality of pixels circuits, wherein each pixel circuit at least includes a photoelectric conversion unit, a read transistor, a reset transistor, and an output line such that electric charge accumulated in the photoelectric conversion unit may be passed through the read transistor for output on the output line and also such that a reset voltage passing through the reset transistor and the read transistor also for output on the output line;

However, the closest prior art does not teach or fairly suggest wherein the output line is connected to a control electrode area of the reset transistor so that the control electrode area is supplied with a signal level of the output line, wherein the reset transistor is controlled to turned on and off by changes in the signal level of the output line.

Art Unit: 2612

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
